In the name of Allah the most gracious the most merciful

Thanks be to Allah, the Lord of the Worlds, Master of the Day of Judgment, peace and prayers be upon our mujahidin leader, the imam of the prophets and the messengers, Muhammad Bin 'Abdullah, on his pure family, his companions and those who followed their paths to Judgment day

My generous brother, May God protect you - Peace, mercy and the blessings of Allah be upon you

I hope, praise and glory be to God, that you and all the brothers are in the protection of Allah and may he grant you his blessings, in health and success for what satisfies him. I hope that he would receive all the martyrs who offered their pure souls to glorify his word and set his authority

My generous brother: As you may know, international disbelief is today facing a resounding defeat in Afghanistan due to the jihad and the sacrifices for approximately ten years. It is now attempting to find a way to egress as it also attempts to intensify the situation in Afghanistan with crises like in 1992; and for the parties and the people to fight each other following its egress. In an effort to achieve this outrageous purpose, it attempts to exploit the subservient countries in the area to ignite the civil war fire in the country. Consequently, these subservient individuals shall attempt to maintain their authority on the border areas to find problems to erect an Islamic government. Hence, the central government shall lose its credibility, a fact that would lead to dividing the country, exactly similar to the past. It would also lead to the launch of the civil war's fire. All this would hinder the erection of the Islamic government, the great goal from the jihad and from all these sacrifices. In an effort to achieve the goals of the jihad and the ongoing sacrifices for the last ten years and to protect this oppressed and proud people from other endurances - we therefore request your assistance in the following points. Rest assured that we shall not relinquish the principles of the Shari'a and the erection of the Islamic State:

1. For the proud Afghani people and the Islamic State to be protected from the oppression of the Pakistani government, I

urge you to firmly establish the bases in the neighboring country rather than in Afghanistan; because this country is not only one of the biggest supporters of the international infidel, but is its guide and one of its main partners. I will also attempt in the future to find problems for Islam and the Muslims, as time goes by.

2. For the opposition in Afghanistan to appear before the world as united, I ask you not to appoint a future leader in the country.

3. For you and the known officials to attempt not to show your presence in the country now or in the future; although your carrying out the jihad would be ongoing with our mujahidin, exactly similar to what it used to be in the past. We do not have any objection to your presence in Afghanistan, neither now nor at the end, but the need to implement this wisdom in the interest of all.

At last, I ask God the Almighty once more to protect you all and to grant you success for these points. I shall wait to receive a written or taped response; please send it to me from the same route.

Peace, mercy and the blessings of Allah be upon you
